

ASSO INVISIBLE CLEAR

- Best abrasion resistance
- Long durability
- Refraction index closer to the water one. High performances also for rookies
- More precision in fishing thanks to its superior specific weight
- Waterproof to keep breaking strenght in water
- Low stretch for top strikes
- Unaffected by low temperatures

CLEAR - 04 W			
--------------	--	--	--

ASSO SUPERFLUOROCARBON

- Is the latest development in fluorocarbon technology
- Asso SUPERFLUOROCARBON can reach the tenacity and softness of a high quality nylon filament, yet it offers the advantages of a 100% fluorocarbon line

CLEAR - 04 W

ASSO PREMIUM

- Tenacity and softness of a high quality nylon filament, yet it offers the advantages of a 100% fluorocarbon line
- Line for any cover situation, or any application where abrasion is a main concern
- Improved low stretch for super fast hook setting power and great sensitivity

CLEAR - 04 W			
--------------	--	--	--

ASSO SUPERFLUOROCARBON HIGH STRETCH

- Has a Double Stretch factor compared to standard fluorocarbon lines, offering extra shock absorption, natural hook presentation giving more positive contact while playing a fish.
- Particularly suitable as a leader material, can be used with a low stretch braid and mono main line.

ASSO CAMOUFLAGE MULTICOLOUR

- It's the first fluorocarbon multicolour engineered to offer the "maximum invisibility" in all fishing condition
- Thanks to its index of refraction, in case of strong light, it offers all the advantages of the fluorocarbon
- Thanks to the "Camouflage" colour, the line becomes completely invisible in the dark.

ASSO INVISIBLE HARD

- Is line has been specifically engineered for extra stiffness, low stretch and superior abrasion resistance: due to these features, it is a wonderful hook length material for saltwater fishing, for all heavy cover situations, and for all those situations where durability is a paramount feature
- More precision in fishing
- Increased chance of catch
- Long durability

 6 pcs of single pvc plain box into a pvc plain big pvc box

ASSO INVISIBLE SOFT

- Is line has been specifically engineered for extra stiffness, low stretch and extraordinary turnover
- It is softer and more flexible than most fluorocarbon lines
- These features make it a wonderful hook length material for freshwater applications and for fly-fishing
- Its invisibility, high sinking speed and easy turnover will dramatically improve your fly-fishing performances

ASSO INVISIBLE BIG GAME

- It is nearly invisible in water
- It has a long fight endurance, allowing you to bring also large fish to the boat side: even with hooked-up fish and after two hours of play, it keeps its stretch in water almost unchanged, unlike all other conventional lines
- Its improved shock resistance minimizes the break off at the strike
- It has an outstanding knot and crimping strength
- It is much more abrasion resistant than most nylon monofilaments of the same diameter

ASSO FLUOROCASTING

- 100% pure Fluorocarbon line
- As soft and castable as nylon
- Super-fast Sinking
- More Sensitive Bite Detection and Superior Hooksetting Power
- Enhanced Abrasion Resistance
- High Durability
- No Water Absorption
- Invisibility In Water

CLEAR - 04 W			
--------------	--	--	--

ASSO SINKING

- Specifically engineered for ledgering and feeder fishing
- Outstanding abrasion resistance, ideal for fish in tough conditions such as heavy vegetation, obstacles, etc.
- High visibility color for the control of fishing position
- Low stretch for ready strikes
- 3 times more sinking than normal nylon line without using any degreasing substances

BROWN - 40 BR

150 mt - 12 individual spools in PVC box

NYLON

21

ASSO ICE HEAVY

- Fluorocarbon is almost unaffected by low temperatures, this line keeps its features almost unchanged even in the coldest weather conditions (down to -40°C), unlike conventional fishing lines that stiffen and lose strength. Moreover, Fluorocarbon is heavier than nylon, which also helps the lure to sink faster. Last but not least, the yellow and brown colourations provide a high line visibility on ice.

BROWN - 40 BR		FLUO YELLOW - 42 FY	
---------------	--	---------------------	--

WORK IN PROGRESS

ASSO SUPER HARD - FLIPPING & JIGGING

- Lowest stretch for perfect bait control
- Abrasion resistance surface, ideal for safely fishing in heavy conditions.
- Great performance on reels, with an instant hook setting power due to its stiffness
- Great knot strength that up to now was the most critical factor in hard lines
