

GROUNDBAITS

Trabucco produces its own groundbaits since 1986, by selecting the best ingredients on the worldwide markets, and by formulas created and developed on the banks of the rivers and competition venues of all Europe, and most of all, by the experience of a living legend like Roberto Trabucco

Maurizio Fedeli

ULTIMATE GROUNDBAITS

All the Trabucco groundbaits are ready to use and don't require any additional ingredient in general sense, but of course every angler has his "secrets" and the wide range of ingredients and aromas of our range, can match every kind of demand and requirement. Our range is made by three series: the Team Master, recently developed in cooperation with the World Champion and Italian Champion Luigi Sorti; the Ultimate, issued by many years and rekoned at international level, one of the best and most complete available in all market places.

Gianluigi Sorti

GNT MATCH expert

COMPETITION SERIES

NEW

With the growth of Bream population, now available in a wide range of sizes and fully integrated with existing species, the Italian match fishing scenario is changing once again. The angler's knowledge gets more and more mature, but fish are getting more and more cautious, as they are accustomed to existing groundbaits while they associate them to danger as well. So here is the need for change, the wish to offer the fish a different stimulation, that finds the proper answer in the new Match Expert range, resulting from the sum of national and international experiences.

As the new recipes can not be revealed, there is only one way to understand their effectiveness: take them fishing. With its simplicity, the 1 kilo bag eases both the first tests and the subsequent creation of personal mixes. Thanks to the 12 kilos package, the dealer has the opportunity to stock a wide range of GNT groundbaits with a light investment.

ADDITIVES AND INGREDIENTS

Trabucco offers a range of ingredients to create custom recipes, according everyone's preferences and needs. Every single ingredient has it's specific own use and different organic

Code	Description	Property	Bag
064-10-100	Grey Leam/Joker Binder	Highly Sticky	1kg
062-15-300	Terre D'etang	Sticky	2kg
062-15-100	Terre de Riviere Ocre	Sticky	3kg
PP 0030 22 00	Ttx Mais	Disgregant/Slightly Sweet	1kg

qualities, that we have listed in the "Legenda" in order to make easier the correct use.

TORTEAU DE MAIS GROS

This component doesn't have any influence on nutritional properties of the groundbait, because oil has been drawn from the raw material, but only on mechanic behaviour of the mix. Due to its nature and texture, it has no binding power, so that Tourteau is added to quickly break up the groundbait balls when fishing midwater, both within pole range and long distance waggler action.

TERRE D'ETANG

With a slightly darker color and higher binding power than Terre De Somme/Damp Leam, it is therefore ideal to be added to your groundbait in deeper areas or with a moderate current. Also good for delivering a larger amounts of bait, especially when fishing with jokers.

TERRE DE RIVIERE OCREE

Leam with a moderate binding power and an excellent light brown color. To be added to groundbait, in the presence of moderate currents or deep venues. It is often over wetted and used to convey a large amount of bait or jokers when for fishing for bream in still waters.

METHOD & SPECIALIST MIX

These fantastic fishmeal groundbaits has been designed and tested without compromises by Roberto Trabucco in conjunction with all our best consultants, specifically for match and feeder anglers. They're produced using only the finest, natural and selected ingredients with an high protein content and the addition of attractors and stimulants. They're also produced in small batches to ensure a constant quality and the freshest groundbait.

Code	Description	Bag
060-02-000	Green Method Mix	1kg
060-02-100	Carp Method	1kg
060-02-200	Dark Expander	1kg
060-02-300	Super Natural	1kg

DARK EXPANDER

Dark colour and fine grain mix, it is particularly effective on bream, crucian and carp. The ingredients include fish meal with a lower nutritional value and minced expander pellets to ensure good dispersion even at lower temperatures.

GREEN METHOD MIX

Brand new "Sweet Fishmeal", ground bait, i.e. based on fish meal but with the addition of sweet flavour ingredients. The colour is light green thanks to the Betaine Green. It has been designed especially for open-end and method feeder fishing for carp, crucian and big bream.

SUPER NATURAL

This ground bait has been created for fishing fisheries, canals and rivers. The fine grain mix is made with selected ingredients such as fish meal and sweeties, the best combination if you need a ground bait able to stop the fish for a long time.

CARP METHOD

This high nutritional value ground bait has been created for fishing big carp and you should use it in Spring and Summer time. Great for use with open-end feeders, cage feeders or with flatbed method feeders. The main ingredient is the fish meal and so it is fast dissolving ground bait.

PELLET CARP BROWN

Pellet of new formula developed for the big carps and crucians. Very dark color and added with fish oil. It has been developed in cooperation with Trabucco Team World Club Champion.

Code	Description	Bag
060-50-800/12	Pellet Carpe & Carassi 2 mm	1kg NEW
060-50-900/12	Pellet Carpe & Carassi 3 mm	1kg
060-55-000/12	Pellet Carp Halibut 4mm	1kg
060-55-100/12	Pellet Carp Halibut 6mm	1kg

Flatbed method feeder & flexy mould with pellet Carp Brown 3mm

Németh Balázs

The Method Feeder, together with the needful compendium Flexy Mould, can be easily used with soaked pellets. Even in this case the bait will result like the icing on the cake and fish cannot resist to eat it with a big gulp.

XP 3000 LEAM

These are the special leams developed in cooperation with Team Ravanelli; successfully used during many National and International matches.

The Damp Leam is an extremely soft terre de somme with very fine granulometry, therefore ideal for the realization of the "pongo" (plasticine style over dampened leam) or possibly sieved straight from the bag, to create an attractive cloud in the swim. It is available both in classic brown colour and in black. The River Leam is heavier than the previous ones, especially suitable to add weight to any groundbait or to be used in medium fast rivers with frequent baiting action (classic example Medelana venue). The Grey Leam is a bentonite with high binding specification, which can be added to the other leams to create an endless series of different combinations.

Code	Description	Bag
