GNT MATCH TEAM

The range of bags and rod holdalls called "Match Team", is the most technically advanced that exists in today's market - designed to carry all the necessary equipment on long fishing trips.

In particular, this range is dedicated to all those who devote themselves entirely to fishing contests and to those for who fishing is a hobby. All these products are water-resistant, anti-tear, have double slider zippers and are extremely durable. All bags and some rod holdalls have a rigid reinforced base, foam handles and adjustable shoulder strap for easier carrying. All seams are made with triple thread of wire. Brand new design and colour scheme.

GNT MATCH EVA

The GNT range of technical luggage, dedicated to the advanced matchman but also to the keen pleasure angler, now expands with some products made from EVA, material that features very interesting properties. First of all, the water resistance, also obtained through

the chance to weld the seams. Then the possibility to reduce the overall volume of the containers, folding them, due to the semi-rigidity of the material. Finally, the ease of cleaning, the extreme durability and elegant appearance, which enhance their value

NEW KEEPNET BAG

Completely waterproof bags, designed to carry the keepnet and landing net heads. The welding seams and the excellent sealing provided by the top zipper prevent water and smell to get inside the car. The XL version has double capacity to store two keepnets or add side trays of the seatbox. The product features handles and shoulder strap for easy transport.

LUGGAGE & SURF ACCESSORIES

XTR SURFCASTING PRO TEAM

The Surf casting match circuit is now quite important in width and depth. In other words, there aren't numbers only, but also quality, and the natural consequence is that Trabucco brand is highly considered among the top anglers.

The Trabucco expert and testimonial team in this field is unique in Europe, so it's natural that the company always keep investing in product's development, as proved by the launch of this technical luggage range. The XTR items are quite rich in features and show a neat cosmetic imprint, with black and chartreuse combination which gives the market a strong signal. Using a waterproof and washable material weighing 1200 denier, bags, rucksacks and rod holdalls are built to last. The addition of plastic boxes with many compartments enables to take full advantage of the inside room to neatly store all accessories. The special paddings, the stiff bottoms, the handles and shoulder belts, the zippers and seams are made with great care and precision. Taking advantage from its wonderful success, now XTR range expands with some new products and with an interesting family of EVA containers.

XTR SURF EVA

A fantastic series of semi-rigid EVA containers, destined to gain the trust of thousands of XTR luggage users.

The bucket is valuable to pick up water when you are fishing from a raised position above the sea level; it offers a 6 meters long rope with a practical winder, while its offset center of gravity makes it collapse as soon as it hits water, easing the filling operation. The two waterproof bags have many uses: they carry everything wet or dirty, preserving the car boot from water, sand and smells; they may contain boots and raincoat, but also caught fish, as well as live bait; with their hinged lid they protect the accessories during showers; their handles recline completely, avoiding to take too much space during the fishing action.
